Radiotherapy Errors Analysis before Plan Delivery based on Probabilistic Safety Analysis Method

Short Statement: First author of the paper.

BIOGRAPHY

Dr. wenyi LI is the technology backbone of Accurate Radiotherapy Research Group in the Institute of Nuclear Energy Safety Technology, CAS · FDS Team. She is also an outstanding doctoral student of school of University of Chinese Academy of Sciences, Hefei, Anhui Province, China.

As a technology backbone, she joined the research of advanced radiotherapy software named Accurate Radiotherapy System (ARTS). With many years of clinical experience, she mainly engaged in the study of radiotherapy reliability and safety.
