

Mr. Anders Olsson

PSAM12 Speaker Bio

Deputy Managing Director, Lloyd's Register Consulting – Energy AB, Principal Consultant

Short Statement: First author

BIOGRAPHY

Anders Olsson has since 1995 been working in the nuclear business. Between 1995 and 1998 he was employed by ABB Atom (Swedish vendor) where he among other things worked with thermal hydraulic analysis and structural verification.

Since year 1999, when he joined RELCON (first Scandpower, now Lloyd's Register Consulting – Energy AB), he has mainly been involved in work related to PSA and customer support and training regarding the RiskSpectrum® software.

Within the field of PSA Anders has extensive experience in PSA Level 1 and 2 for all operating modes and in PSA related project. Anders has often worked as project manager.

Human Reliability Analysis (HRA) is also a field where Anders has extensive experience.

Currently, Anders holds a position as Deputy Managing Director in Lloyd's Register Consulting - Energy AB where he is responsible for business development of consultancy services towards the nuclear market.
